Opening Prayer

O almighty God

Our Father in heaven

From whom all goodness and truth on

Earth have come forth.

Grant to us

The Catholic community gathered at this meeting,

The vision to recognize

And the vigor to espouse,

Sound principles of educational theory

And practice in a spirit of balanced

Judgment

And the proper perspective.

Give us also the courage

To turn always

Onto the path of higher goodness

In our deliberations

Administrative decisions

And courses of action

Amen

Remembering Our Deceased
January 2024

Let us remember the students, staff, trustees and family members of staff and trustees who have recently passed away and keep them in our thoughts and prayers. Eternal rest grant unto them Lord and let the perpetual light shine upon them. May they rest in peace Amen.

PRESENTATION

RAHEEM WHITE
ANTIBLACK RACISM

Dufferin-

If you all sit by, and watch the achievement gap for Black students grow ~~danger~~, you are committing a sin of omission. If you sit and watch the dignity of Black students be disregarded, you are committing a sin of omission. I urge the board to take concrete steps to hold ~~the~~ ~~who~~ put the physical, mental and emotional safety of students at risk accountable. I urge you to create a Black Student Success Strategy in response to the census data that's now available. That would be a more effective way of addressing the gaps in education rather than the multi-year strategic plan which is a replica of the previous.

Curriculum Updates in Financial Literacy

Elementary Financial Literacy

Grade 1: Students learn to recognize Canadian coins and bills and compare their values.

Grade 2: Students build on their understanding that money has value and identify different ways to represent the same amount of money. For example, how different combinations of coins can add up to \$1, and how different combinations of loonies, toonies and bills can add up to \$100.

Grade 3: Students continue to develop their understanding of money by calculating the change required for simple transactions involving whole dollar amounts.

Grade 4: Students learn that there are different ways to pay for goods and services. Students also learn how consumers determine whether an item is good value for the price.

Grade 5: Students learn about different ways to transfer money between people and organizations, such as e-transfers and cheques. They calculate the total cost and change required for cash transactions involving items priced in dollars and cents, using mental math and other strategies. Students learn how to determine the best value for an item for example, five apples for \$1.00 versus three apples for 75 cents. Students prepare basic budgets and learn about the concepts of credit and debt.

Grade 6: The advantages and disadvantages of using different methods of payment for goods and services are explored. Students investigate different types of financial goals, identify and describe factors that could affect these goals, and outline steps to achieve them. Students explain the concept of interest rates and identify interest rates and fees offered by banks and other financial institutions. They also learn how trading, lending, borrowing and donating are different ways to distribute resources.

Dear Marianne,

After much reflection and consideration, I ask that you please accept this letter as notice of my intention to retire from the position of Secondary School Principal, effective February 1, 2024. My last day at work will be

Principal and Principal, and have many positive memories. I remain grateful for the support of many colleagues and school communities over these years. Most notably, the school communities where I have served will always hold a special place in my heart.

Prior to my formal retirement, I am willing to help to make any necessary transition as smooth as possible. In the coming months, I may also be interested in assisting the board as a retired Principal, as you may deem appropriate. I would be grateful to continue in service to DPCDSB in the future.

Further, I would appreciate confirmation, in writing, of your acceptance of my intentions. Please inform me of my options regarding any benefits or other related next steps.

I remain grateful for the time that I have been part of the DPCDSB Family.

Topic: Artificial Intelligence Funding

Whereas: Artificial intelligence (AI) is a useful tool to support student learning and assist teachers both during school hours and beyond the classroom; and

Whereas: With its useful applications in monitoring student assessment, offering personalized tutoring, detecting copyright, and streamlining administrative tasks for educators, AI offers a myriad of benefits; and

Whereas: Without artificial intelligence, teachers are at a higher risk of being overburdened with administrative tasks while students can unnecessarily fall behind in class due to a lack of personalized support outside of regular school hours; and

Whereas: As artificial intelligence becomes more prevalent in society, early exposure to the technology better inform and support student and educator learning beyond the classroom.

Whereas: School boards do not have the source funding to integrate this technology into classrooms, devices, and necessary professional development opportunities for educators.

Therefore, be it Resolved that:
