

What is PLAY?

PLAY is a non-profit organization dedicated to facilitating the wellbeing of families living with Autism. Focusing on healthy lifestyles by means of physical education and the development of essential social skills.

What makes our program unique?

Unlike most programs designed for Autistic youth; PLAY provides personalized support for each student. Our staff is dedicated in helping to bring out the best in each individual. The friendships that we develop help to build confidence and trust that will initiate communication and social skills amongst the peers all while having FUN.
